

"No matter the size of job or the industry, my focus is to find workable solutions that achieve the best possible outcomes for all stakeholders."

ANDREW BLUNDELL

Partner, Sydney

Professional Experience

Andrew joined the firm in July 2014 as a Manager in the Western Sydney office, helping partner Graeme Beattie to establish Worrells in Parramatta.

Now as a Partner in the Sydney office and with over 13 years corporate advisory and insolvency experience, Andrew works on all form of appointments. He has significant experience handling large trading appointments dealing with complexities arising from specialised trust/corporate structures and cross boarder recovery considerations.

Some of his key achievements have included:

- Managing the exit of the subsidiary of a \$9 billion European listed food delivery business from the Australian market through a voluntary administration/deed of company arrangement process. This required investigations into the collectability of cross boarder inter related company loans and the engagement of contractors and the reclassification of those contractors as employees. Once that determination was reached, he developed the methodology required to determine the quantum of the entitlements owed to 5,500 former contractors.
- Leading the restructure and sale via a deed of company arrangement/creditors trust of a well-known \$55 million and 56 store Australian retail chain over a three month period.
